2026 Out of Hours/Emergency/Weekend Chiropractic Assessment & Treatment Charges

I generally try to avoid working weekends/bank holidays; wherever possible I arrange all appointments for during the week. We all need time off to recharge and spend with our families and friends.

Weekend appointments may be available by special request to existing patients or clients of Waterside Chiropractic but please note: if a weekend appointment is required, then these are charged for at a significantly increased rate, as detailed below. Weekend appointment times are available by prior consultation only (Saturday/Sunday/Bank Holidays). For equine patients, location of yard/stables will dictate appointment times available as travelling time will also need to be considered.

New patients or clients that are not already registered with Waterside Chiropractic and/or have not already had an initial assessment and first treatment will not normally be seen out of hours or at weekends except in very exceptional circumstances (e.g. direct emergency veterinary referral), and these appointments will be charged for at double the weekday rate.

Out of hours/emergency appointments during holiday periods are charged at the weekend rate.

PATIENT TYPE	FOLLOW-UP TREATMENTS
CANINE	£70 + travel*
EQUINE	£100 + travel**
OTHER ANIMALS	Please contact to discuss
HUMAN	£80

* Canine only – dogs are normally seen at Waterside Farm, for home visits **in exceptional circumstances only**, £2 per mile from farm postcode (outward & return)

** Equine only - includes first 10 miles from farm postcode, £2 per mile > 10 miles (outward & return) (see Equine Travel Charges PDF at www.watersidechiropractic.co.uk)

If at a follow-up treatment session it is not possible to treat because the patient's case history and/or physical examination prohibits or relevant veterinary consents have not been obtained, the session will be charged for at 75% of the cost of a normal follow-up treatment.

Appointments missed or cancelled without 24 hours notice will normally be charged for at the full cost.
